Smoke Detector Policy / Acknowledgement

Smoke detectors have been provided in all the apartments. These units are very important to tenant and property safety.

Name _____ Apartment _____

I acknowledge that my unit contains a minimum of one (1) smoke detector. Each smoke detector was inspected and deemed to be working properly at time of move in.

I agree to test the smoke detector(s) in my apartment at least twice per month and to replace the battery in the smoke detector(s) as necessary and I will notify Dawson Development or a company representative if any of the smoke detectors are not operating properly.

I acknowledge that I will not tamper with, remove, disable, or replace the smoke detector(s) and will pay a fine of \$50.00 if this occurs. Tampering with the smoke detector is a violation of local and state law and is against policy at Dawson Development.
